## 3. Finalising your Licence

To finalise your licence, you must complete an STA (Safety Training Assessment) with a club official. You can schedule this combination training/assessment procedure through the club.

You will need to have the appropriate kart for age/restrictor fitted, etc and all safety and driving equipment with you to complete the assessment.

This verifies your equipment (race suit/helmet, etc.) meets the required KA regulations and is appropriate for your age/class of racing.

Once your STA is completed the club will issue you with a temporary licence and you may practice on the track once you receive this document (while awaiting your plastic license from KNSW).

Before competing at any race meeting you will need to complete and pass an OLT (Observed Licence Test). When you are ready you schedule this with the club and you may enter races as a “P” plater.

CKRC recommends that you download and understand the 2017 KA Manual available on their website.
