

Canberra Kart Racing Club – Return to Play in a COVID-Safe Environment

The Club recognises the work of the ACT Government in planning for the return of sport in the ACT. We thank the Government as well as staff from ACT Sport and Recreation and ACT Health Directorates for their assistance in helping the Club return to the track.

This Covid-Safe Plan is flexible and will change in line with Government announces and the changing COVID environment.

Driving

The club can offer recreational driving (“practice”), under the track practice guidelines provisioned through Karting NSW.

Under further relaxed restrictions, competitive events will be permitted with the key messages of social distancing (i.e. – the 1 person per 2sq/m rule) and increased hygiene around shared areas to reduce the spread/likelihood of COVID transmission.

Karts and safety equipment should not be shared. If equipment is to be shared, any touched surfaces should be wiped down adequately prior to and after use.

Drivers are required to book practice attendance via the CKRC online booking system. This will be used to monitor attendance and attendee locations.

Competition entry is managed through the Karting NSW Portal.

The management of “Time on Track” will be the responsibility of the participant/s and will continue to comply with the Karting NSW guidelines on grouped class practice to ensure that drivers receive adequate time on track.

Before you arrive

Please stay home if you are unwell, have COVID-19 symptoms, or are required to quarantine or isolate.

Only travel with people from your own household or as otherwise allowed under ACT Government COVID-19 restrictions.

Make sure you have the Check in CBR app on your phone. You will need to check in.

From the 29th October, masks are no longer required in outdoor scenarios. All persons over the age of 12 years must carry a mask on their person.

At the Track

All attendees are required to check-in using the Check in CBR App.

Keep your distance. If you must engage with another person, maintain adequate social distance of at least 1.5m.

The entire pit space area should be utilised to ensure adequate per/m separation.

When in the out-grid area, or supervising on-track, ensure adequate spacing is maintained.

Practice social distancing. This is particularly important around toilets, out-grid, pit entrance and track entry points.

Use the hand sanitiser provided and where possible, limit usage of any shared facilities (toilets).

Who Can Drive?

The track will be open to members only.

Unless specified on the ACT Government COVID-19 website, there are no restrictions for entry into the ACT. Travel to and from the ACT is open.

There are a number of identified “high-risk” areas in NSW, VIC and QLD – these are available from: <https://www.covid19.act.gov.au/travel/entering-the-act> . Residents identified in these locations are to follow the advice provided on the ACT COVID-19 website.

The club accepts no responsibility for any persons travel not complying with the ACT Public Health Directions.
